

# Recalculating Your GPA

Name \_\_\_\_\_ Date \_\_\_\_\_

To qualify for a Florida Bright Futures Scholarship your GPA will be reconfigured. Initial eligibility requirements must be met prior to graduation. Final recalculating of grades will occur in June 2008.

The following courses are used to reconfigure your GPA:

- 4 English    ■ 3 Math    ■ 3 Science    ■ 3 Social Studies    ■ 2 Foreign Language
- Up to 3 additional credits from courses in the subject areas listed above may be used to raise your GPA.

## STEP ONE:

- 1) Cross out any courses that have an "A" beside the Credit column. Do not use this information.
- 2) On your transcript highlight all English, Math, Science, Social Studies and Foreign Language courses & the grades earned.
- 2) ★ Star the **grades** by the Honors and AP courses.
- 3) On the chart on the back of this sheet, list each Standard grade and each Honors/AP grade in the correct column.
- 4) Count the Standard A's, B's, C's, D's and F's and place the # on the Totals chart.
- 5) Count the Honors A's, B's, C's, D's and F's and place the # on the Totals chart.
- 6) Transfer the information to the front of the handout.
- 7) Calculate the weight value for the Standard and Honors courses by multiplying as shown.

STANDARD COURSES		HONORS/AP COURSES	
Column 1 Courses	Column 2 Weight Value	Column 3 Courses	Column 4 Weight Value
# A's =	X 4.0 =	# A's =	X 4.5 =
# B's =	X 3.0 =	# B's =	X 3.5 =
# C's =	X 2.0 =	# C's =	X 2.5 =
# D's =	X 1.0 =	# D's =	X 1.5 =
# F's =	X 0.0 =	# F's =	X 0.0 =
<b>Total Courses =</b>	<b>Total Value =</b>	<b>Total Courses =</b>	<b>Total Value =</b>

## STEP TWO:

- 1) Add the number of courses taken in **column 1** and place this number in the **Total Courses =** cell
- 2) Add the number of courses taken in **column 3** and place this number in the **Total Courses =** cell
- 3) Add column 1 and column 3:

$$\text{Column 1 } \underline{\hspace{2cm}} + \text{Column 3 } \underline{\hspace{2cm}} = \text{Total \# Courses} = \underline{\hspace{2cm}}$$

- 4) Add the Total value in **column 2** and place this number in the **Total Value =** cell
- 5) Add the Total value in **column 4** and place this number in the **Total Value =** cell
- 6) Add the Total values from column 2 and column 4:

$$\text{Column 2 } \underline{\hspace{2cm}} + \text{Column 4 } \underline{\hspace{2cm}} = \text{Total Value} = \underline{\hspace{2cm}}$$

## STEP THREE:

- 1) **Divide** the **Total Value** by the **Total # of Courses**:

$$\text{Total Value: } \underline{\hspace{2cm}} \text{ Divided by Total \# Courses: } \underline{\hspace{2cm}} = \underline{\hspace{2cm}} \text{ Recalculated GPA}$$
